## David Marwell

### *Mengele: Unmasking the "Angel of Death"*

Josef Mengele, perhaps the most notorious war criminal of all time, was the embodiment of bloodless efficiency and total devotion to the grotesque Nazi worldview. David Marwell's *Mengele: Unmasking the "Angel of Death"* provides a gripping narrative of the quest to bring him to justice. Marwell is a historian and former Justice Department official who was tasked with uncovering Mengele's fate, and in this new book, he draws upon new sources and scholarship to provide one of the most detailed accounts of who this man was.
